interior design ltd.
specializing in custom cabinetry design

To Whom It May Concern,

I have had the pleasure of working with Laurie McBain of Kaleidoscope Designs Inc. over the past couple of years. With over 16 years experience in the design field (13 in custom cabinetry) I have worked with many design field professionals including builders, trades and interior designers. Laurie has consistently proven to be one of the most creative, energetic and effective designers I have worked with.

Laurie is an extremely talented and dedicated designer. Her exceptional eye for detail and vast practical experience ensures that the wishes of her clients are executed and that a strong design is delivered.

Laurie communicates her ideas with great detail, in a clear and concise fashion, helping facilitate her clients' needs, dreams and desires. She is very hands on with her projects working closely with everyone involved. This helps her execute strong design concepts and achieve quality work.

Taking each client through the design process with ease she ensures that her client gets the individual attention they deserve and that nothing is missed or overlooked. There is no cookie cutter design with Laurie; every project is specific to her client's desires. She truly is "a change with every turn".

I look forward to a lasting relationship and many exciting projects with Laurie and Kaleidoscope Designs.

Kindest Regards,

Chris Salas D.I.D., C.K.D.
